

Bachelor's programs at the Institute of International Education of NTU "KhPI" in 2024/2025 academic year

Full-time mode of study under Bachelor's programs

<i>№</i>	<i>Code</i>	<i>Specialty</i>	<i>Educational program</i>
1	017	Physical training and sports (teaching in Ukrainian)	Physical training and sports
2	071	Accounting and taxation (teaching in Ukrainian)	Accounting, auditing and taxation
3	072	Finance, banking, insurance and stock market (teaching in Ukrainian)	Finance and banking
4	073	Management (teaching in Ukrainian)	Management of organizations and administration
		Management (teaching in English)	Business Administration
5	075	Marketing (teaching in Ukrainian)	Marketing
6	076	Business and Trade (teaching in Ukrainian)	Business and Trade
7	101	Ecology (teaching in Ukrainian)	Engineering ecology (Ecological engineering)
8	105	Applied physics and nanomaterials (teaching in English)	Applied physics and nanomaterials for electronics, energetics and medicine
9	113	Applied mathematics (teaching in English)	Intelligent data analysis
10	121	Software Engineering (teaching in English)	Software engineering
11	122	Computer science (teaching in English)	Computer science and intelligent systems
	122	Computer science (teaching in Ukrainian)	Modelling, design and computer graphics
		Computer science (teaching in English)	Modelling, design and computer graphics
12	123	Computer engineering (teaching in Ukrainian)	Modern programming, mobile devices and computer games
		Computer engineering (teaching in English)	Modern programming, mobile devices and computer games
13	125	Cybersecurity and information protection (teaching in English)	Cybersecurity
14	141	Power engineering, electrical engineering and electromechanics (teaching in Ukrainian)	Power engineering (Electrical systems and networks)
		Power engineering, electrical engineering and electromechanics (teaching in English)	Power engineering (Power stations)
			Power engineering (Electrical systems and networks)
			Electric drive, mechatronics and robotics (Mechatronics and robotics)
15	145	Renewable energy and hydropower (teaching in Ukrainian)	Hydropower
		Renewable energy and hydropower (teaching in English)	Hydropower
16	161	Chemical technology and engineering (teaching in Ukrainian)	Chemical technology and engineering
			Oil, gas and solid fuel refining technologies
		Chemical technology and engineering (teaching in English)	Oil, gas and solid fuel refining technologies
17	162	Biotechnology and bioengineering (teaching in Ukrainian)	Biotechnology and bioengineering
18	171	Electronics (teaching in English)	Electronics (Biomedical electronics)
19	181	Food technologies (teaching in Ukrainian)	Technologies of fats, fermentation products and winemaking
20	185	Oil and gas engineering and technology (teaching in Ukrainian)	Oil and gas production
		Oil and gas engineering and technology (teaching in English)	Oil and gas production
21	263	Civil protection (teaching in Ukrainian)	Labour safety
22	273	Railway transport (teaching in Ukrainian)	Locomotives and locomotive economy
23	274	Automobile transport (teaching in Ukrainian)	Automobiles and automotive industry
		Automobile transport (teaching in English)	Automobiles and automotive industry
24	292	International economic relations (teaching in Ukrainian)	International economic relations
Part-time mode of study under Bachelor's programs			
<i>№</i>	<i>Code</i>	<i>Specialty</i>	<i>Educational program</i>

1	071	Accounting and taxation (teaching in Ukrainian)	Accounting, auditing and taxation
2	073	Management (teaching in Ukrainian)	Management of organizations and administration
		Management (teaching in English)	Business Administration
3	122	Computer science (teaching in Ukrainian)	Modelling, design and computer graphics
		Computer science (Teaching in English)	Modelling, design and computer graphics
4	123	Computer engineering (teaching in Ukrainian)	Modern programming, mobile devices and computer games
		Computer engineering (teaching in English)	Modern programming, mobile devices and computer games
5	141	Power engineering, electrical engineering and electromechanics (teaching in Ukrainian)	Power engineering (Electrical systems and networks)
		Power engineering, electrical engineering and electromechanics (teaching in English)	Power engineering (Electrical systems and networks)
6	145	Renewable energy and hydropower (teaching in Ukrainian)	Hydropower
		Renewable energy and hydropower (teaching in English)	Hydropower
7	161	Chemical technology and engineering (teaching in Ukrainian)	Chemical technology and engineering
			Oil, gas and solid fuel refining technologies
		Technologies of organic substances, food additives and cosmetics	
		Chemical Technology and Engineering (teaching in English)	Oil, gas and solid fuel refining technologies
8	181	Food technologies (teaching in Ukrainian)	Technologies of fats, fermentation products and winemaking
9	185	Oil and gas engineering and technology (teaching in Ukrainian)	Oil and gas production
		Oil and gas engineering and technology (teaching in English)	Oil and gas production
10	263	Civil protection (teaching in Ukrainian)	Labour safety
11	273	Railway transport (teaching in Ukrainian)	Locomotives and locomotive economy
12	274	Automobile transport (teaching in Ukrainian)	Automobiles and automotive industry
		Automobile transport (teaching in English)	Automobiles and automotive industry
